MEMORANDUM

To: ALL ALCOHOL BEVERAGE LICENSEES

FROM: DONNA RUETTEN, Bureau Chief
Purchasing & Distribution

SUBJECT: RETAIL PRICE LIST CLASSIFICATION
EFFECTIVE MAY 1, 1985.

Attached is the Liquor Division's Retail Price List Classification to become effective May 1, 1985. This price list covers the months of May, June and July 1985.

The category of products labeled "Specialty" are items which will be made available on a limited basis. We cannot guarantee consistent availability from our warehouse and stores, but these products can be ordered for your use if the need arises.

Price increases or decreases are noted in the right hand column entitled "Status" with a "PC" which means price change. Also shown beside the "PC" is the plus (+) or minus (–) amount of price change. New listings and closeouts are marked as such and the price list is categorized both for distilled spirits and wine.

Closeouts and other miscellaneous information are to be found in the front pages of this booklet.

Due to price changes allowed after the Department of Revenue, Liquor Division, May 1, 1985 Price Lists were in the process of being printed, the retail prices shown for Tanqueray 94.6 Proof, Codes 442D, 422E, 422H and 422X, are incorrect. YOU'RE IMPORTANT TO US

That's the reason for this customer survey. We hope you'll take the time to note your opinions, tear out this page, and return the survey to us. Every one will be carefully studied.

For example, whether a customer happens to be a licensee or individual consumer we would be interested to know if they travel long distances in order to buy at a larger store because of longer hours, larger selection, better service, etc. as opposed to nearer smaller stores they may have by-passed. We're also anxious to know how you feel about the particular store wherever you choose to do business.

Please don't hesitate to give us your ideas. Any additional comments may be written on the back of the page. Send to:

METRIC CONTAINER SIZES

The federal government requires that alcoholic beverages be bottled in metric sized containers. Metric conversion for wines was mandated to be completed by January 1, 1979; for distilled spirits by January 1, 1980. While there may be some old stock in non-metric sizes still in our system, most of our merchandise is now in metric bottles. The chart below indicates which sizes our code letters specifically designate.

DISTILLED SPIRITS

Montana Code Letter	Metric Size	No. Bottles Per Case	U.S. Fluid Ounces
H	1.75 Liter	6	59.2 oz.
E	1 Liter	12	33.8 oz.
D	750 Milliliters	12	25.4 oz.
C	500 Milliliters	24	16.9 oz.
X	375 Milliliters	24	12.7 oz.
B	200 Milliliters	48	6.8 oz.
A	50 Milliliters	120	1.7 oz.

WINE

Montana Code Letter	Metric Size	No. Bottles Per Case	U.S. Fluid Ounces
L	12 Liters	1	405.6 oz.
J	5 Liters	4	169 oz.
T	4 Liters	4	135.2 oz.
V	3 Liters	4	101.4 oz.
H	1.5 Liters	6	50.7 oz.
E	1 Liter	12	33.8 oz.
D	750 Milliliters	12	25.4 oz.
X	375 Milliliters	24	12.7 oz.
B	187 Milliliters	48	6.3 oz.

(One exception: three Paul Masson carafe bottles in the 375 milliliter size are carried under the "C" code, 637C, 641C and 666C, because of an original difference in bottle type and price.)

STATE PRICING FORMULA

The following elements determine the retail prices of liquor and wines sold through the state stores.

1. The base case cost from distilleries, wineries, or importers selling to the Liquor Division;
2. Federal excise taxes on all liquor and wine, plus custom duty rates on any imported merchandise;
3. Freight costs covering both the cost of bringing merchandise into Helena from suppliers throughout the country, and distributing merchandise, in turn, from the Helena warehouse to all state stores.

The above elements represent the total base cost of all items over which the Liquor Division exercises no control.

4. Markup is established by the Division. The current markup of forty percent on all distilled spirits has been in effect since 1974. Markup on table wine (14% alcohol by volume and under), and fortified wine varies according to case prices as follows: Case cost up to \$17.99—60% markup, case cost \$18.00 and over—40% markup. In computing the selling price of all liquor sold and delivered by the Department, the Department is authorized and directed to designate and establish the State markup on all liquor either manufactured, distilled, rectified, bottled, or processed in Montana at 10 percent less than the amount of markup of products of out-of-state manufacturers, distillers, rectifiers and processors.
5. State taxes are set by the legislature. The total tax of twenty-six percent applies to both distilled spirits and fortified wines, with the revenues allocated out as indicated in the diagram below. As a result of the Montana Wine Initiative, since July 1, 1979, the state tax on table wine has been a flat \$.20 per liter, with an allocation formula similar to that of spirits and fortified wines.
